ABOUT US

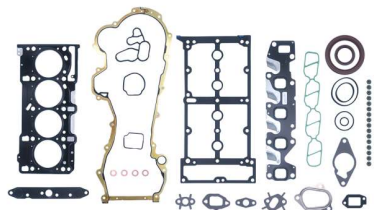

With its 30 years of experience our Company located in Konya is serving to its local and international clients by manufacturing Engine Gaskets and Sealing Products under the AVORTEX GASKET brand. Our Company produces Passenger Car Engine Gaskets, Truck Engine Gaskets, Compressor Gaskets and the sealing products by using state-of-the-art technological developments within its proven quality. Our Company who included the Multi Layer Steel Gaskets (MLS Gasket) that are commonly used in the engines as a result of technological developments, into this product range has started to develop products rapidly and in high quality by producing the steel moulds to be used in production of such products. Quality in the production is of the essence for our company who gives utmost importance to use high quality materials in its product. Not only the product quality, but also customer satisfaction is our essential principal as well.

The background of the image features a dark, textured surface with a repeating hexagonal pattern, characteristic of Renault's design language. The pattern is illuminated from the top, creating a gradient of light and shadow that emphasizes the three-dimensional quality of the hexagons. The overall color palette is dark, ranging from deep blacks to dark greys.

The image features the word "Ford" in a bold, white, sans-serif font, centered horizontally. The background is a dark, gradient surface that transitions from a lighter grey at the top to a deep black at the bottom. In the lower half of the image, there is a prominent grid pattern of small, dark, rectangular shapes that recede into the distance, creating a sense of depth and perspective. The overall aesthetic is modern and industrial.

COROLLA - CARINA

The background features a dark, moody sky with a soft, glowing light source on the horizon, creating a gradient from light grey to deep black. The lower half of the image shows a floor with a repeating hexagonal or honeycomb pattern, which recedes into the distance, creating a strong sense of perspective. The overall aesthetic is futuristic and high-tech.
